Love flowers?

we do too!

Your creations will brighten the lives of others

Floristry Courses

Floristry

Floristry is a true creative expression.

Floral arrangements often accompany many special occasions in our lives.

A birthday, a wedding, for friendship, to express love or just to say 'thank you'.

Flowers convey so many messages.

Floristry will change your life and you can brighten up the lives of others with your creations.

Our Floristry course is based on the Certificate II in Floristry (WRF20104) and focuses on skills in technical & contemporary arrangements for all occasions with an emphasis on speed & artistic designs.

You will also learn a wide range of up to date and relevant retail and business skills. Work placements will further enhance your competencies and chances of finding a job.

Upon successful completion you will have a nationally recognised Floristry qualification.

We also offer nationally accredited Floristry short courses (Statement of Attainment in Floristry modules).

About Us

E.E.T. is an accredited and registered training organisation that cares about your education.

Our staff are experienced, friendly and supportive. Students have commented on how they are pleased to be treated like an individual - not like a number.

Come and talk to us about your learning opportunities so you can land that dream job in Floristry.

We also offer a range of Certificates and short courses in Fashion & Photography Make-up, Retail, English Proficiency and Functions & DJ Master of Ceremonies.
